

## **President's Corner – March 2009**

### **President's Corner**

Greetings and a Happy St. Patrick's Day!

With a name like Kirkpatrick you can bet that I'll be participating in the "Wearing O' the Green" and partaking a bit of green brew this week in honor of me' patron saint.

Last month's chili feed meeting was well attended and the marriage of all the varieties of chili created a delicious treat on an otherwise cold day. My thanks to Bill Landry and Boreal Aviation for allowing us to use the maintenance hangar.

Our next major event will be coming in May or June which will be our yearly trek to Whitman Field for our chapter work weekend at the AirVenture grounds. This year should be especially interesting given all the changes that have and are occurring at the convention site. If you have not joined us in previous years, talk to one of us that have attended and we'll tell you how much fun it can be. I should be getting information shortly on which dates are available. We'll talk more on this at this Saturday's meeting.

That's all for now, hope to see you this Saturday at Boreal's conference room. We are working on a special presentation at this months meeting. Come on out and join us!
