

## **President's Corner**

Greetings Chapter members,

A new month is upon us and Oshkosh is rapidly approaching! I submitted documents for our work weekend of 10-11 July. If you would still like to attend and help out, give me a call and I can increase our numbers. I have also forwarded Mike Logue's proposal to Scott Erbsch and Keith Kaspari requesting approval to add a self contained fresh water system into our chapter's kitchen. Mike has all the parts and ideas to make this work, so I see no reason we should not have fresh water soon! Thanks Mike for your fantastic work on this.

I'm getting a great feeling about our sign project! Reading the latest email traffic on this has given me positive vibes of hope! Thanks Roger for all of your time and effort expended towards our goal...we are close!

12 June was a rain out for our Young Eagle flights. But, I heard the 13<sup>th</sup> backup day WX was better and we were able to fly 6 youth. Phil Spade did a remarkable job designing highly visible marshalling paddles to be used by our ground controllers. Thanks Phil for taking the initiative! Your workmanship is an inspiration to all of us!

I received a DVD from Oshkosh to be played at our June Chapter meeting...my guess is it contains exciting stuff about Air Venture 2010 to get us all pumped up for the experience! I will make sure this DVD is on the table for all to see. Lynn will preside over the meeting as I will be out of town for a family wedding.

It's exciting to see how far we have come...we have had a busy summer and it's exciting to think about what we are all capable of accomplishing in the days, weeks, months, and years to come.

Thanks for your support!

Greg Durand
